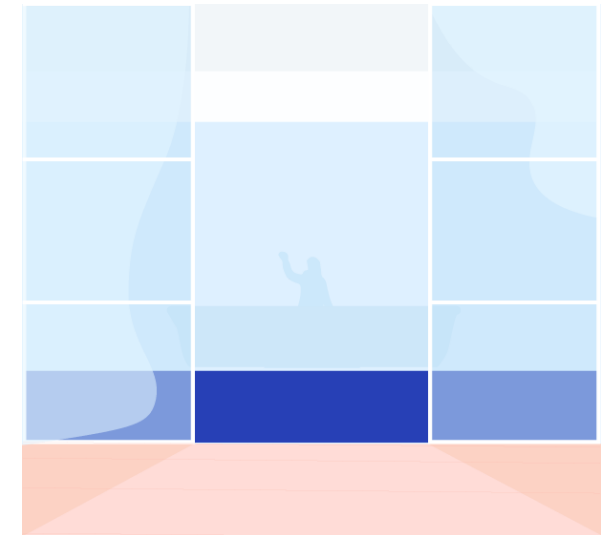

## Graphic Guide

# Sophisticated illustrations

The illustrations give a touch of personality and personalization to elevate the delivered information experience.

The illustrations will be used on all of the cards, banners, and in the in-app notifications.

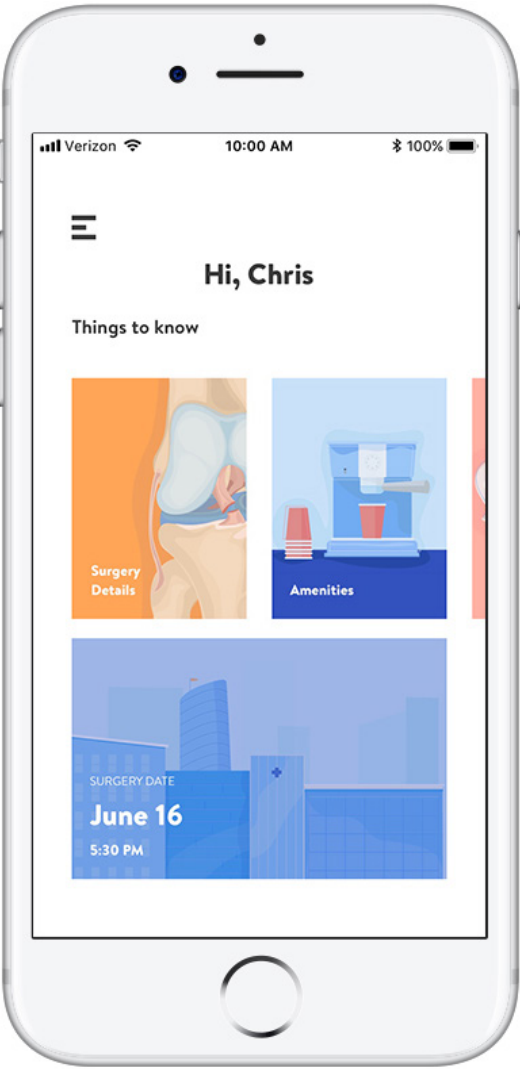

# Hero Flows

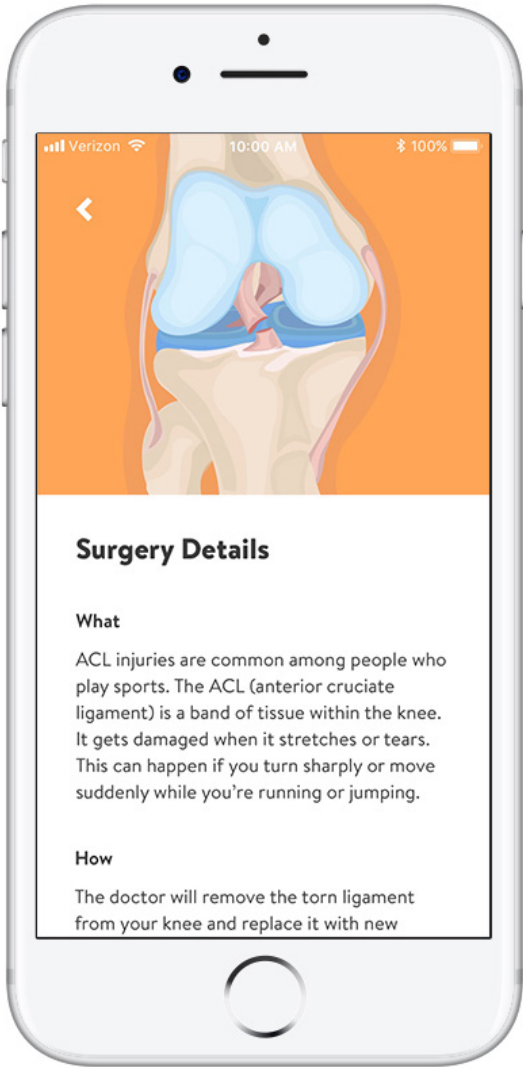

These hero flows demonstrate three key scenarios and the interaction flow and screens that entail.

# Pre-surgery preparation

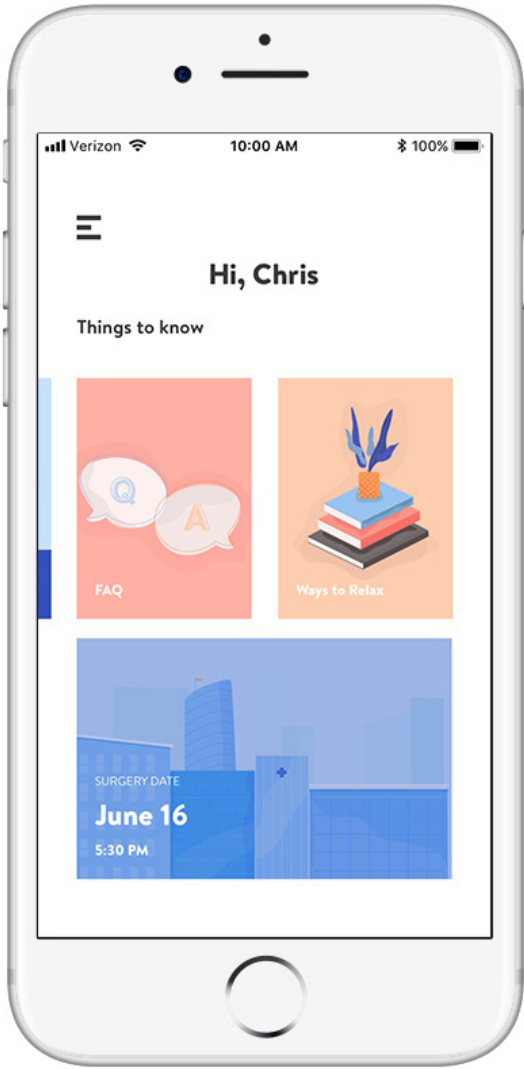

Kathryn is apprehensive about her husband’s ACL surgery and wants to learn more details about it and the day of the surgery itself.

She wants to learn more about the ACL surgery. She taps on the surgery details card.

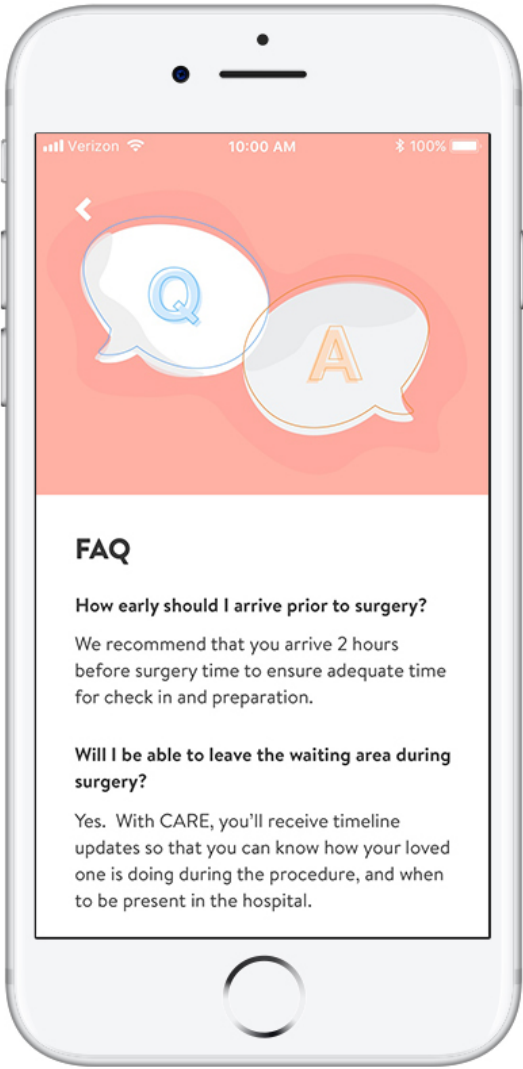

On the screen, she scrolls to see more details. She taps on the back arrow icon to navigate to the home page.

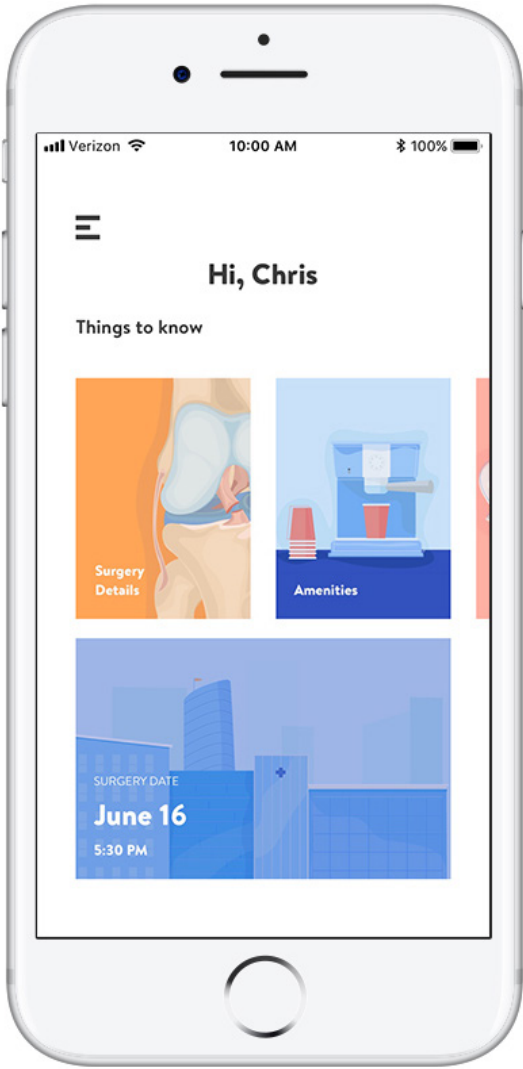

She has a few questions about the visit that she wants answered. She swipes the card carousel and taps on the FAQ card.

# Pre-surgery preparation

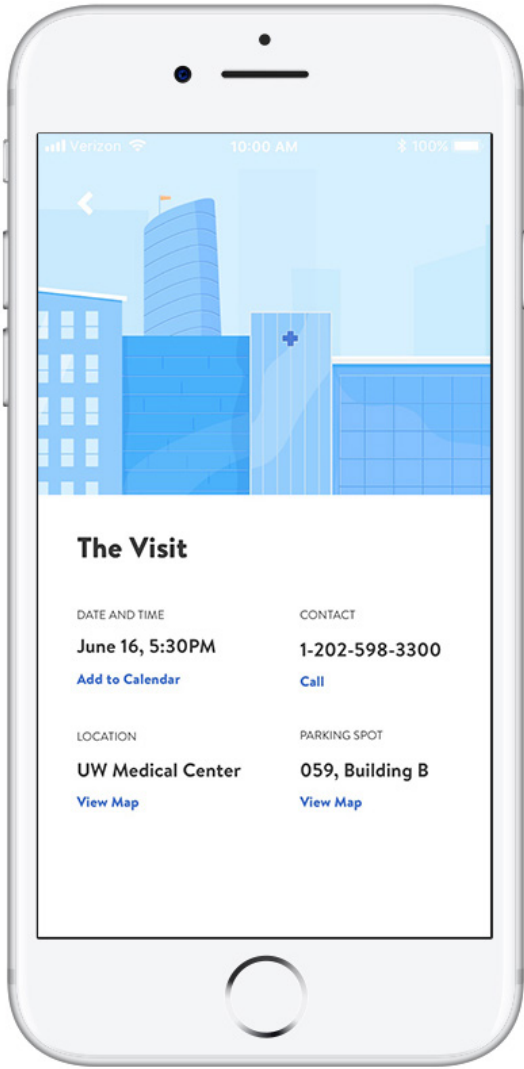

Kathryn is apprehensive about her husband’s ACL surgery and wants to learn more details about it and the day of the surgery itself.

On the screen, she scrolls to see the list of answers. She taps on the back arrow icon to navigate to the home page.

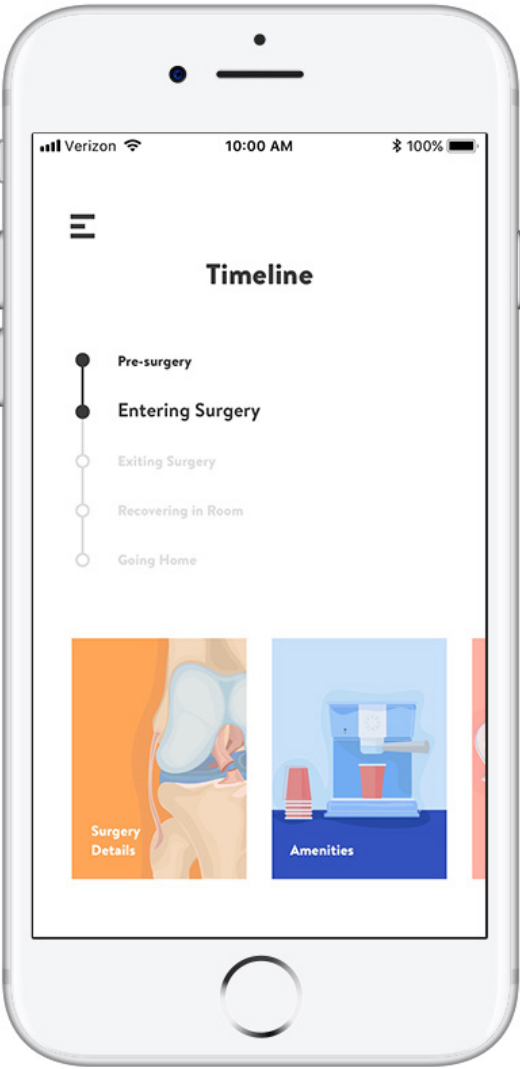

On the day of the surgery, she taps on the visit details screen to see where it is.

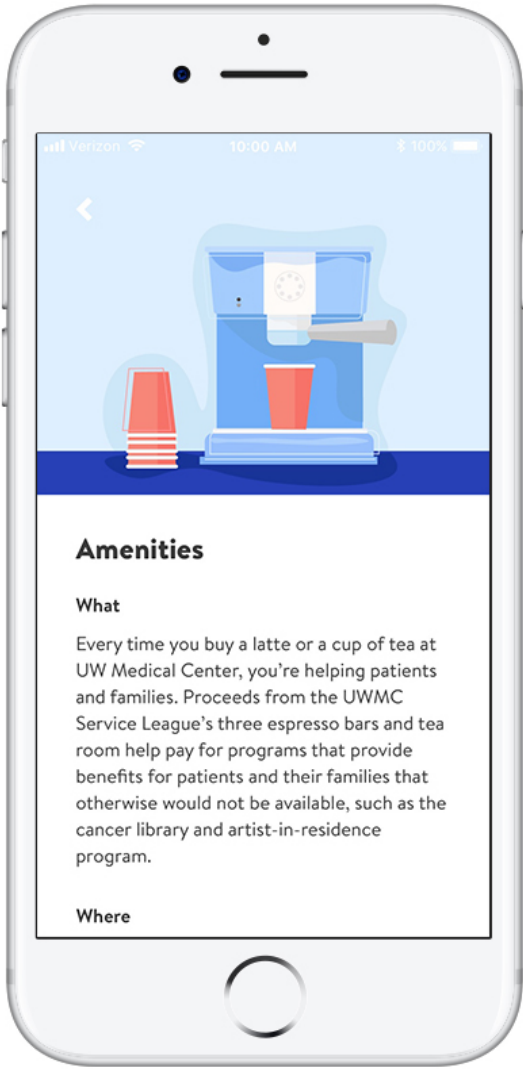

She has a few questions about the visit that she wants answered. She swipes the card carousel and taps on the FAQ card.

# Waiting Room Nervousness

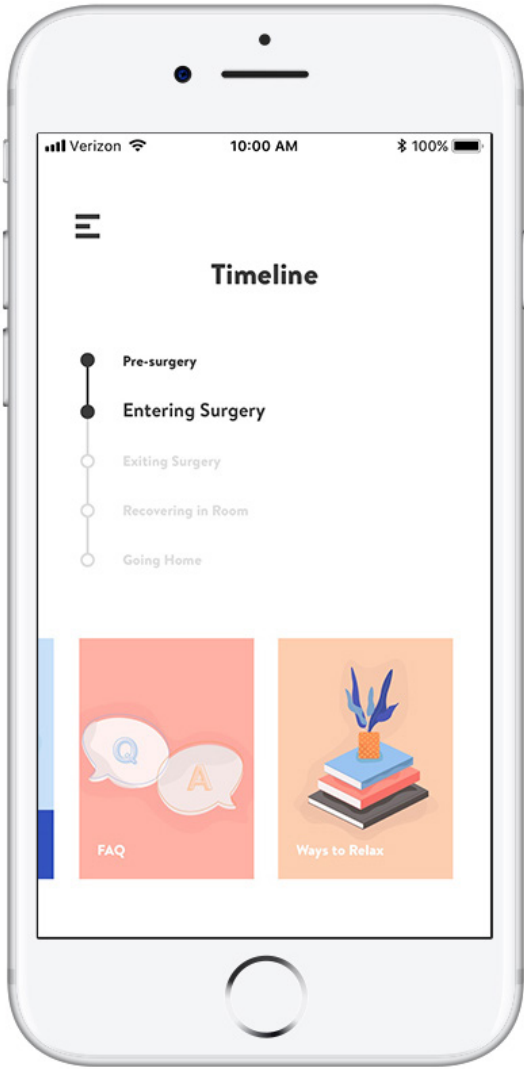

On the day of her husband’s surgery, Kathryn has trouble calming down. She needs to take a coffee break but hasn’t been to the hospital before.

She’s starting to feel hungry and needs coffee to stay energized. She taps on the amenities card to learn more.

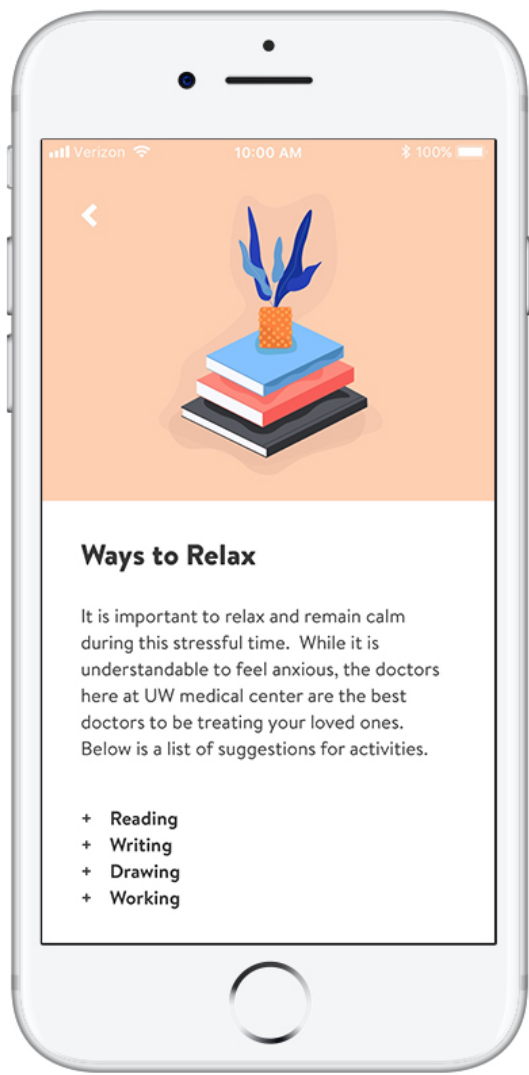

On the screen, she scrolls to see what places are in the hospital and where she can go to and get some food and drinks.

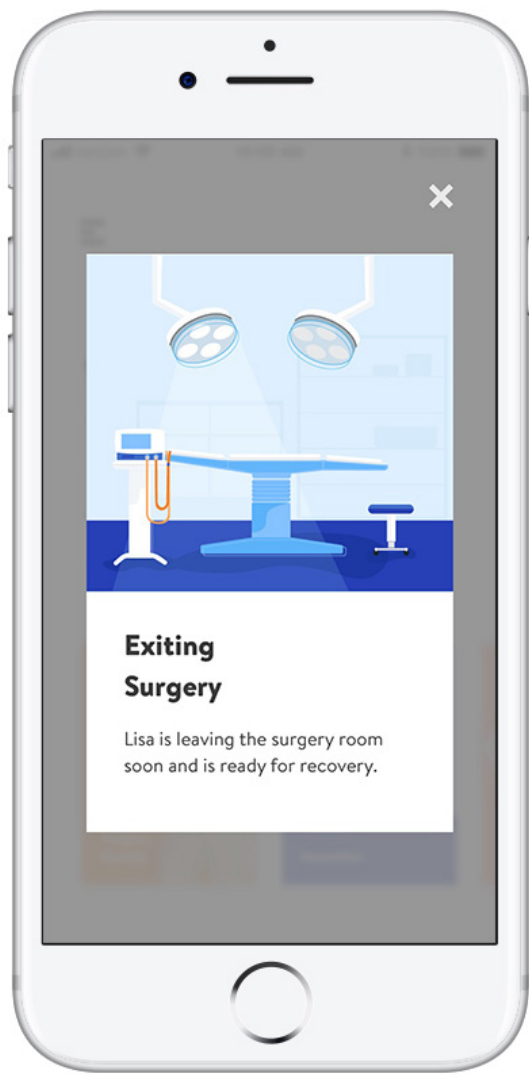

She feels better but is still nervous. She swipes through the card carousel. She taps on the Ways to Relax card.

# Waiting Room Nervousness

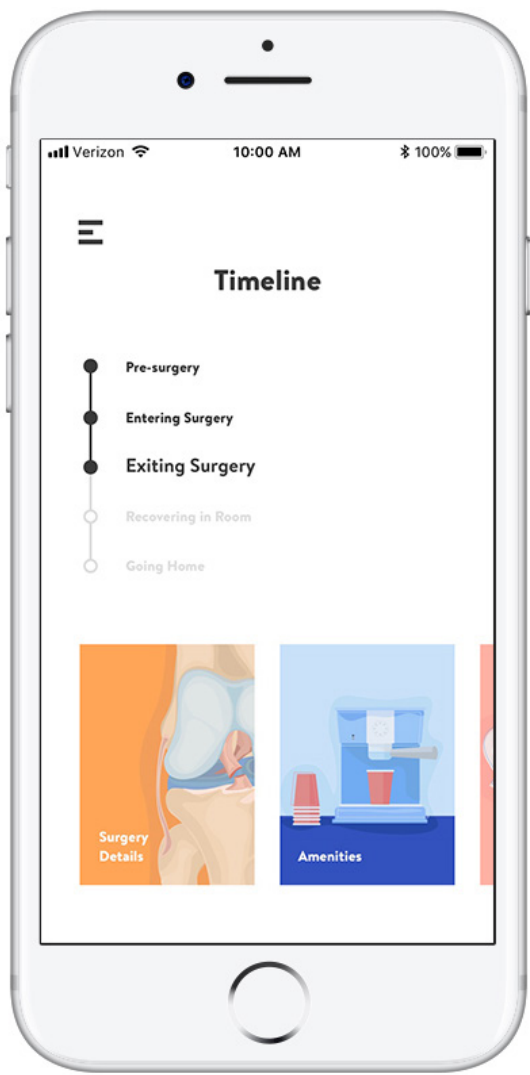

On the day of her husband’s surgery, Kathryn has trouble calming down. She needs to take a coffee break but hasn’t been to the hospital before.

On the screen, she looks to see some tips on how to relax. She taps on the back arrow to go to the main page.

She is notified that her husband has finally left surgery. She feels more relaxed and calm. She taps on the exit button to go to the home screen.

She waits patiently in the pod until she receives her next notification.
